

### **Extract from WG-EMM-09**

5.34 The Working Group recognised that the MPAs Special Fund could be utilised to facilitate such work, and recommended that a correspondence group should be convened immediately following WG-EMM to expedite the development of coordinated proposals for use of the available funds. The terms of reference for this correspondence group would be to:

- (i) consider the types of proposal(s) which might be appropriate for further development, based on the aims outlined in paragraph 5.33;
- (ii) elaborate the details of specific proposal(s), as appropriate;
- (iii) outline any further work which may be required to facilitate the development of proposals and/or the allocation of funds;
- (iv) submit a paper to SC-CAMLR-XXVIII summarising the discussions on (i) to (iii), and requesting specific advice from the Scientific Committee on the next steps, as appropriate.
